

**AGENDA INFORMATION**  
**TIFFIN CITY COUNCIL COMMUNICATION**

<b>DATE:</b>	April 3, 2026
<b>AGENDA ITEM:</b>	Discussion and Consideration of the purchase of a Hotsy Cleaning System for the Wastewater Department
<b>ACTION:</b>	Motion

**Background**

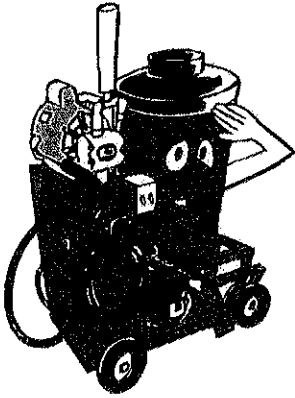

The Wastewater Department regularly performs cleaning and maintenance tasks that require high-pressure hot water, including removing grease buildup, sludge, and debris from equipment and surfaces. Current methods are labor-intensive and less effective, often requiring additional time or outside services.

The proposed pressure washer will allow staff to complete these tasks in-house, reducing downtime and improving overall maintenance practices.

**Recommendation**

Staff recommends approval of the purchase of the Hotsy 1075BE Compact Portable Hot Water Pressure Washer in the amount of \$13,938.48, to be used by the Water & Wastewater Departments for routine maintenance and operational needs.
