

AGENDA INFORMATION
TIFFIN CITY COUNCIL COMMUNICATION

DATE:	July 31, 2025
AGENDA ITEM:	Consideration of Purchasing and Installation of a Bike Repair Station Along the Tiffin Trail System
ACTION:	Motion

Background

At the July 15, 2025, City Council meeting, members expressed interest in installing bike repair stations along Tiffin’s trail system. The discussion emphasized the current lack of accessible repair options for cyclists who experience mechanical issues while using the trails. Presently, the nearest bike repair station is in Coralville, which is not a practical solution for Tiffin residents or trail users in need of immediate assistance.

Following the meeting, the Public Works Director researched available models and identified a full-featured bike repair station priced at \$1,150. These stations are equipped with tools for basic repairs—such as tire inflation, chain adjustments, and brake tuning—and are built with durable, weather-resistant materials suitable for outdoor installation.

Proposed Locations

Public Works has identified several potential installation sites along the trail system, selected based on trail usage, accessibility, and proximity to residential areas. The recommended locations include:

- South Park Road
- Roberts Ferry Road
- Park Place

Recommendation

City staff supports this initiative as a meaningful enhancement to Tiffin’s trail amenities. Installing a bike repair station will improve safety and convenience for cyclists, while also encouraging greater use of the trail system and promoting a more bike-friendly community.

DELUXE PUBLIC WORK STAND

The Deluxe Public Work Stand includes all the tools necessary to perform basic bike repairs and maintenance at the park, on the trail, or in an apartment complex. Nine tools are securely attached via retractable cables to prevent tangling and provide cyclists with an easy, accessible means to keep their bikes rolling.

Product Specifications

- Tools securely attach by retractable braided stainless steel cables
- Large surface area for custom branding/signage
- Designed to directly interface with Saris Infrastructure's High Security Pump and Wheel Chock attachments (sold separately)
- Long hose provides wide range of motion without touching the ground
- Impact- and UV-resistant front plate won't show wear and tear from pedal strikes
- ADA compliant design

Deluxe Public Work Stand

Recommended Setbacks

Recommended setbacks with integrated wheel chock

Included Tools

- Philips & standard screwdrivers
- Steel core tire levers (2)
- Headset/pedal wrench
- 8/10mm cone wrench
- 9/11mm cone wrench
- Torx T-25
- Hex key set

Stainless-steel aircraft cable

Thick-walled DOM tubing, Laser cut plate

Stainless-steel or powder coat finish

Installation hardware included

2 year warranty

Made in the USA
