About this item

- **【MUTCD & FHWA Compliant】** MUTCD R1-1 Stop Sign Size 30" x 30". Official Flashing LED Stop Sign are an excellent way to increase driver awareness at intersections. This Solar powered LED blinking stop sign roughly 700,000 vehicular accidents occur per year at Stop signs with approximately one-third of crashes resulting in injury. Precautionary measures for combating this issue include increasing visibility of traffic control signage (source).
- **【Solar Powered】** Solar Powered Flashing LED Stop Signs use an innovative synchronized LED light system to increase driver awareness of road signage. Solar Panel Included for Solar Powered Signs. **【3M Engineering Grade Reflective Sheeting】** Up to 7 Years of outdoor durability, at least 1/2 miles visual distance.
- **【LED Blinking Lamp beads】** life expectancy over 100,000 Hours. The High Intensity Red LED blinking lights flash at a rate of 50 – 60 flashes per minute extending the range of visibility during day, night, and harsh weather conditions. ON/OFF button for storage. It can continue working for 5 days even on rainy days (insufficient sun light) when fully charged.
- **【Durable & IP65 dust waterproof】** Heavy duty rustproof chromeplated metal frame, sturdy enough to withstand severe weather such as strong winds. Waterproof treatment, prevent rainwater from infiltration.
- **【24/7 or dusk to dawn flashing LED】** 24/7 Flash, Sign flashes 24 Hours a day and 7 days a week; Dusk-to-Dawn Sensor: Built-in light sensor, automatically turns on when the light is low. Sign flashes from dusk to dawn for 7 days a week.

SOLAR FLASHERS

The most durable **SOLAR POWERED** barricade light on the market today. Our lights feature the industry's brightest **LED OPTIC LENS**, which produces 30% more light output when compared to competitive brands. Our patented case and circuitry features are designed to withstand the hardest conditions experienced in traffic safety. Built with a strong case, long lasting battery and **LED LIGHT SOURCE**, these lights dramatically decrease maintenance and replacement costs. Meets ITE specifications and is NCHRP-350 approved.

SOLAR FLASHERS

TYPE D
360° Visibility

(Red Lens)

TYPE A/C

Model: ES002

TYPE D

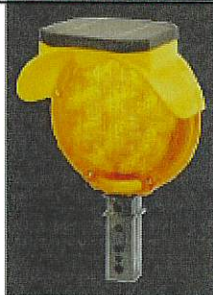

Model: ES360

TYPE B

Model: ESB

TYPE B: Model ESB-DB

Base adapts to square posts, u-channel posts and type III barricade uprights.

- Light intensity is up to 35 effective candles
- 2-Way Operation: Flashing or Off
- Operates 24 hours a day, and dims 50% at night to extend battery life
- LiFePO4 solar rechargeable batteries included
- UV-stabilized polycarbonate lens withstands high impact pressure

TYPE A/C (Two-Sided Visibility)

MODEL	ES002 - Solar Type A/C with 1.75" D Bolt
-------	--

TYPE B (One-Sided Visibility)

MODEL	ESB - Solar Type B with 1.75" D Bolt
-------	--------------------------------------

TYPE D (360° Visibility)

MODEL	ES360 - Solar Type D with 1.75" D Bolt
-------	--

- CASE COLOR: YELLOW • LENS COLOR: AMBER, RED
- Light recharges in 1 hour and lasts up to 2 weeks with no sunlight
- 3-Way Operation: Steady On, Flashing or Off
- Light automatically turns to off mode during day
